Floral Trade Customs

ORDERS for 2¼-inch pot roses must be for not less than three plants of any one variety at the dozen rate, and not less than 25 of any one variety at the hundred rate; three or more 4-inch at the dozen rate, and ten or more at the hundred rate. For two plants of a variety add 25%, and for one plant of a variety add 50% to the per dozen prices.

TERMS—Cash (money order, draft or registered letter) with order will entitle purchaser to extra count in Roses of our selection equivalent to a 5 per cent. discount, or a discount of 3 per cent. may be deducted from remittance. C. O. D. orders must be accompanied with one-third of the amount in cash. Accounts opened only with known or favorably rated correspondents or those furnishing amply satisfactory references.

PACKING—Always free, usually in light boxes, ventilated in warm weather, well lined in cold weather and securely strapped. From one to two-thirds (and for very distant points all) soil removed and roots carefully wrapped in damp moss and paper.

DELIVERY f. o. b. express car at Springfield, Ohio, second class rates applying to plant shipments. Weather forecasts always carefully ascertained before forwarding during cold weather.

PARCEL POST is recommended especially for small shipments; lighter weight, owing to the greater amount of soil which may be removed, will largely offset any advance over express charges. Consider your zone distance, approximate the probable weight and make a liberal allowance for postage; any excess amount remitted will be refunded or credited after exact weight and postage has been ascertained.

FREIGHT shipment will be made only upon explicit instructions and entirely at risk of purchaser. We assume no responsibility except to deliver properly packed and in good order to depot, bill and route correctly and follow with tracer.

COMPLAINTS will not be recognized unless lodged with us promptly after receipt of goods.

LEEDLE SPRINGFIELD ROSES

LEEDLE SPRINGFIELD ROSES

The Supply—To the best of our information, 1919-20 stocks of Rose Plants in this growing center, at the time of going to press with this list, average two-thirds sold (shipped, booked and reserved for retail catalogue orders).

The Demand—has been so exceptionally early and active, owing to the disappointments of late buyers during the spring of 1919, that earlier crops in some varieties have already been depleted or exhausted, while in other sorts they are yet fairly abundant and strong.

The Moral—for the buyer is to authorize some latitude in the selection of varieties if possible; or, to name a delivery date somewhat later in the spring.

We will have crops in quite a few varieties for late spring delivery.

State purpose
for which wanted so that intelligent
selection of plants may be made.

2 $\frac{1}{4}$ -inch pot Roses are thrifty young plants, with strong balls of roots and vigorous tops, suitable for lining out in nursery rows, bedding, benching, growing on in three to three and one-half-inch pots, or mailing.

4-inch pot Roses are well-branched two-year-old bushes with extra strong roots, ready for quick and substantial results from planting out, forcing, or for immediate sale as choice pot Roses.

All stock summer grown,
under glass, on own roots.

None of the Roses hereinafter offered are dormant or field-grown, but to comply with requirements of several states, our tags bear copy of the following:
